

Results-Oriented Implementation Planning

Implementing an Electronic Medical Records (EMR) or Computerized Provider Order Entry (CPOE) system takes careful planning and extensive experience in workflow analysis, process redesign, system implementation, quality assurance and clinical adoption. Zanett Healthcare partners with you to deliver a quality EMR or CPOE system to your clinicians and patients, positioning your organization for success through a detailed and results-oriented implementation plan.

Our implementation services focus on awareness of business priorities, effective business communications, business value-based IT investment decisions, architectural innovation, effective governance processes and business value delivery.

Comprehensive Solutions

Zanett Healthcare leverages a comprehensive and proven implementation methodology to successfully implement your EMR or CPOE solution. Our multi-disciplinary team of healthcare functional and technology professionals collaborate with your senior management, sponsors, and program leadership teams to help them make the right choices, at the right time, and at the right cost.

We possess the professional attributes required in an ideal implementation partner:

- ▶ **Real Enterprise Value™:** Ability to achieve operational improvements, lower cost and enhanced quality
- ▶ **Project Management:** Proven approach that ensures all project phases and deliverables are completed in a timely and complete manner, and proper implementation of your future technology architecture
- ▶ **Objectivity:** Platform and application agnostic. Our resources have experience with all market-leading software products
- ▶ **Thought Leadership:** Local knowledge, experienced professionals, and deep regulatory and healthcare industry knowledge
- ▶ **Balanced Approach:** Employment of change and risk management
- ▶ **Knowledge Transfer:** Demonstrated ability to partner with our clients to achieve maximum knowledge transfer
- ▶ **Project Recovery:** The ability to recover a project that has experienced an adverse event that has impacted the defined scope, the core technology, or a gap in resources

Getting Started

Attend one of our complimentary, half-day workshops to get started. During these workshops, we review your current organizational structure, major processes, opportunity and pain areas, and short- and long-term needs. By determining the current state vs. desired state, we can then help you outline an improvement plan for the future from a healthcare “best practices” approach.

Complimentary CPOE/EMR Implementation Workshop

Leverage our complimentary CPOE/EMR Implementation Workshop to get started with your detailed, results-oriented EMR/CPOE implementation plan.

Complimentary Project Recovery Workshop

Has your current EMR or CPOE project run into major obstacles? Leverage our **complimentary Project Recovery Workshop** to restart your project and get back on the road to success.

SOLUTION OVERVIEW

Zanett Healthcare delivers comprehensive EMR and CPOE solutions through a detailed and results-oriented implementation plan, which provides:

- ▶ Reduced operating costs
- ▶ Improved speed and quality of service
- ▶ Increased alignment between IT and the business
- ▶ Added value to the mission critical EMR/CPOE projects
- ▶ Demonstrated regulatory compliance
