

## Improve Control and Efficiency, Reduce Waste and Cut Costs

Making sure the right supplies are available at the point of care at the right time is critical for ensuring efficiency and a high quality of care. Many providers have a fragmented supplier network that requires the negotiation and maintenance of numerous supplier contracts often with complex pricing arrangements. This makes it difficult to find and execute on cost savings opportunities.

Zanett Healthcare offers comprehensive Materials Management and Supply Chain Management to help your organization address these challenges, and improve control and efficiencies within your supplier networks.

## Materials Management/Supply Chain Management Solutions

Zanett Healthcare's integrated Materials Management/Supply Chain Management solutions deliver value by enabling your organization to:

### Connect to Suppliers

Connect to your suppliers in real time so you can manage all categories of spending for goods and services—and dramatically improve supplier performance. Control your supplier relationships to reduce costs, improve efficiency, and improve performance.

### Control Procurement

Maximize your buying power by using a single interface for thousands of users to manage goods and services. You can request products and services within preset limits and get real-time access to item availability and pricing—without calling the purchasing department.

### Monitor Inventory Levels

Manage and maintain inventory levels across the organization, locations and business units and support a shared service or distributed business model.

## Getting Started

To get started on the path towards improved control and efficiency, we are pleased to offer you a **complimentary Materials Management/Supply Chain Management Optimization Workshop**. During this half-day workshop, we review your current supply chain systems, major processes, opportunity and pain areas, and short- and long-term needs. By determining the current state vs. desired state, we can then help you outline an improvement plan for the future from a healthcare “best practices” approach.

## SOLUTION OVERVIEW

Zanett Healthcare offers comprehensive Materials Management/Supply Chain Management solutions that enable your organization to:

- ▶ Improve control and efficiency within your supplier networks
- ▶ Reduce waste
- ▶ Identify opportunities to cut costs
- ▶ Maximize your buying power
- ▶ Manage materials, monitor inventory levels and track usage

### Track Materials Usage

Get a real-time picture of patient supply expenses with online access to past history of item purchases for supplies and services. Break down purchase history by organization, department, inventory location, or product category for detailed spending analysis.

### Establish Commitment Control

Automatically generate notification to managers when budgets come within predetermined limits. Control spending by department, product category, account category, or whichever combination you choose.

### Make Information Accessible

Leverage enterprise portal solutions that connect you and your business partners with supply processes, reports, and a consolidated view of materials management transactions.
